Soft Skills

- Team leadership
- Communication
- Problem-solving
- Minimalism

Languages

- English : Fluent
- Hindi : Native
- Japanese : Beginner

Professional Summary

Software Engineer with 2+ years' experience in full-stack and cloud solutions. Led projects up to 20-person teams, delivered scalable systems (Node.js, Go, Flutter, AWS) impacting 40,000+ users. Focused on clean code, leadership, and result-driven development.

Experience

Medoc Health IT   *Remote, Jul 2024 – Jun 2025*
Project Management Intern

- Managed multimodule healthcare project integrating with Indian e-health initiatives in Flutter/Node.js.
- Led 15–20 developers, ensuring quality, timely delivery, and successful onboarding of 3+ hospitals (40,000+ patients).

Appable Technologies   *Remote, Jul 2023 – Jun 2024*
Freelance Software Developer

- Developed sports social platform (matchmaking, tournaments) and fully-automated HRMS for 2–3k users (Node.js, Go).
- Responsible for robust, secure backend and seamless server operations.

Medoc Health IT   *Remote, Aug 2022 – Jul 2023*
Software Development Intern

- Implemented key modules for e-health platform frontend (Flutter) and backend (Node.js).
- Supported Agile collaboration, bug triage, and code quality improvement.

Projects

- **Personal Bahi Khata** (Flutter, Encryption)
  Secure mobile expense tracker; launched on Google Play. [GitHub]
- **Zundrath** (Go, Encryption)
  Local KMS supporting symmetric encryption. [GitHub]
- **Accounting & Inventory System** (Node.js, Flutter)
  Real-time analytics, purchase management, scalable web backend. [GitHub]
- **Blog** (Jekyll)
  Technical articles/case studies. [Blog]

Education

BTech in Computer Science & Engineering
LNCT University, Bhopal M.P., Nov 2021 – May 2025
CGPA: 7.76
